# Activity -1

1. Bar Chart
Bar chart to compare the **total sales amount by product line**.

Purpose:
To identify which product line contributes the highest and lowest sales.

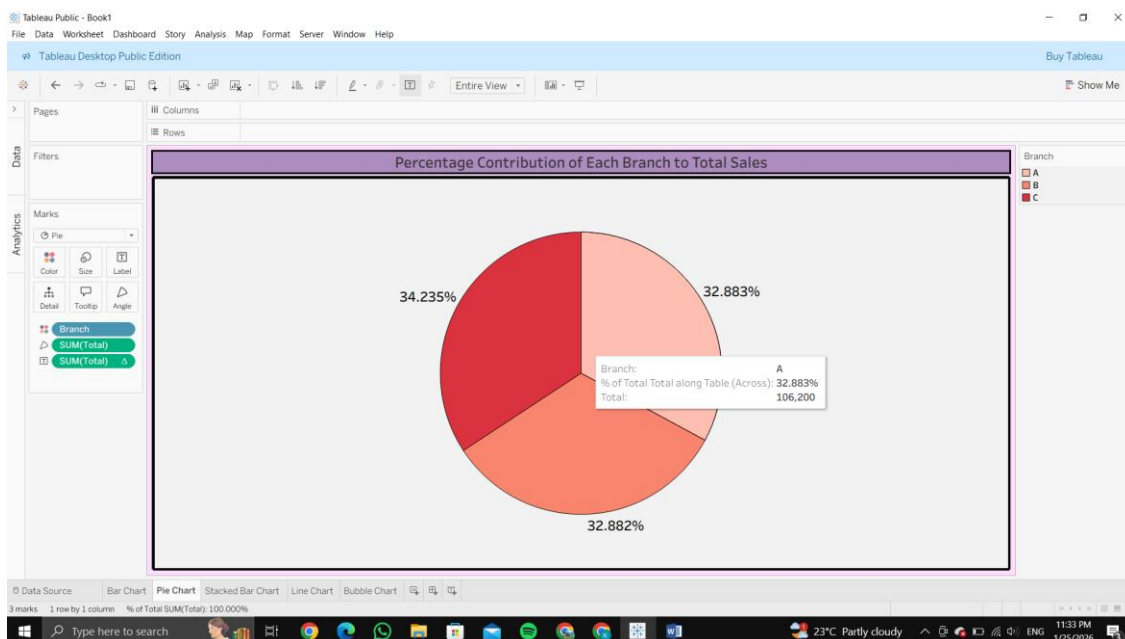

2. Pie Chart

Pie chart to show the **percentage contribution of each branch to total sales**.

Purpose:
To understand which supermarket branch generates the highest share of revenue.

3. Stacked Bar Chart

Stacked bar chart showing **payment method-wise sales across different branches**.

Purpose:
To analyze customer payment preferences (Cash, Credit Card, E-wallet) in each branch.

4. Line Chart

Line chart to show the **trend of total sales over time (by date)**.

Purpose:
To analyze sales performance and identify trends over the 3-month period.

5. Bubble Chart

Bubble chart to visualize **gross income by product line**.

Purpose:
To compare profitability across different product categories.
